**Post-Doctoral Fellow Position**  
**Virology laboratory of Dr Guy Boivin**  
**Holder of the Canada Research Chair on**  
**Emerging Viruses and Antiviral Resistance**

Dr Guy Boivin is an internationally recognized researcher directing a dynamic, motivated and multidisciplinary team at the Infectious Diseases Research Center of Laval University in Quebec City (Canada). We propose you an opportunity at the height of your ambitions in a working environment which favours the sharing of expertises and the access to high technology equipments. We also offer you the possibility of trainings and participations to international scientific meetings.

**Research project:**

The proposed research project aims to set-up novel susceptibility assays to antiviral drugs for human herpes viruses using molecular read-out (real time PCR). Another objective is also to characterize the genotype of drug-resistant herpes virus.

**Start date:** September 2010.

**Financial support:** The candidate will be supported through a research grant allocated by the Quebec Consortium for Drug Discovery. The salary is \$36,000 per year for up to 3 years.

Interested candidates must send their CV along with 2 reference letters as well as a motivation letter to Mrs. Piret at [jocelyne.piret@crchul.ulaval.ca](mailto:jocelyne.piret@crchul.ulaval.ca). For additional information, please contact Dr. Boivin or consult our Website at [www.cri.ulaval.ca/?gboivin\\_eng](http://www.cri.ulaval.ca/?gboivin_eng).
